### CAREER OBJECTIVE

---

Certified IT professional with CCNA, MD-365, and AZ-104, eager to start a career in networking and cloud computing. Skilled in system administration, troubleshooting, and endpoint management. Passionate about learning new technologies and optimizing IT infrastructure. Seeking an entry-level role to apply my knowledge and grow in a dynamic environment.

### SKILLS

---

#### Network Configuration(Routing and Switching)

- Understanding of TCP/IP, VLANs, DNS, DHCP, and NAT
- Basic knowledge of Routing & Switching concepts (Static, OSPF, EIGRP)
- Basic knowledge of Firewall Administration (Fortinet, Palo Alto, Cisco ASA)
- Awareness of VPN Concepts (IPSec, SSL VPN)

#### Microsoft 365 Administration

- Understanding of Microsoft Entra ID (Azure AD) – User & Group Management
- Basic knowledge of Microsoft Exchange Online – Mailbox & Email Configuration
- Familiarity with Microsoft Intune – Device & Application Management
- Basic understanding in SharePoint & OneDrive Administration
- Awareness of Security & Compliance – MFA, Conditional Access, DLP

#### Azure Administration AZ-104

- Basic understanding of Azure Virtual Machines (VMs) & Storage
- Familiarity with Virtual Networks (VNet), NSG, and Load Balancers
- Awareness of Azure Active Directory (Entra ID) & Role-Based Access Control (RBAC)
- Basic understanding in Backup & Disaster Recovery in Azure
- Basic knowledge of Azure Security (Defender, Firewalls, DDoS Protection)

### EXPERIENCE

---

#### Apprenticeship Trainee EMIGO NETWORKS EXPERTS PVT.LTD

- Assisted in configuring and troubleshooting network devices.
- Gained hands-on experience in network administration.
- Worked on Windows endpoint management and cloud solutions.
- Monitored system performance and security protocols.
- Provided technical support for hardware and software issues.
- Learned troubleshooting and problem-solving techniques.
- Applied CCNA, MD-102, and AZ-104 concepts in real scenarios.
